

Destination of Sixth Form

The majority of our Sixth Form students proceed to Higher Education, mostly to universities, but also to other specialised institutions. Others may decide to take a gap-year before continuing their education and some students go directly into employment. The following list shows some of the universities that students have gone on to over the past five years and the courses that have been taken.

**University is a member of the Russell Group (The elite group of universities who aim to project and promote excellence in the UK world of Higher Education).*

Aberystwyth University
